

# 45<sup>TH</sup> ANNUAL EDUCATIONAL CONFERENCE

MARCH 16-19, 2023 | MONTEREY, CA

SUPPORTED BY 

ACCESS THE DETAILS & REGISTER TODAY

## There's so much to see. To do. To learn. (Is it too soon to start packing?)

We're not sure it's possible to transcend past Annual Conferences, but that just might be the case this year.

Sessions cover topics that range from AFib to C. diff, from monkey pox to malpractice. You'll learn how to speak the language of cannabis, how to evaluate and treat GI issues, and how to argue productively. You'll also gain unparalleled hands-on experience in workshops that focus on ADHD, diabetes, and migraines.

The 2023 agenda is second to none, filled with the sort of thought-provoking and practice-enriching content that makes you proud to be part of this extraordinary NP community. So...yep. Maybe we really have outdone ourselves.

COLLABORATE. EDUCATE. ADVOCATE.
